OUR AREAS

MILKY WAY

The Vialattea is one of the world's largest ski areas with 400km of perfectly linked ski slopes, connecting some of the most beautiful Italian ski resorts: Sestriere, Sauze d'Oulx, Sansicario, Cesana, Pragelato, Claviere and the French resort of Montgenèvre.

The area hosted the XX Winter Olympics Torino 2006, for which many new lifts and ski facilities were built.

AOSTA VALLEY

Dominated by the superb profile of the Monte Bianco, in the midst of fir and larch trees, Courmayeur boasts first class tourism accommodation and services at an international level.

This famous Italian resort also offers a characteristic historical centre with its narrow, winding streets, offering a fashionable shopping area, welcoming restaurants and elegant bars and clubs.

MILKY WAY

Sestriere & Sauze d'Oulx

SESTRIERE

Situated at 2,035 metres above sea level and only 100 km from Turin, Sestriere is the star at the entrance to the Alpine Milky Way, always on show for world-class winter sporting events.

Continually living up to its reputation and glamour, it has hosted (and continues to host) numerous World Cup events, a World Championship and was the Olympic site for Alpine Skiing in 2006

SAUZE D'OULX

Known as “the balcony of the Alps”, winter in Sauze is a paradise for true ski lovers. The slopes of this small township form part of the Vialattea, one of the best prepared, largest and professional ski areas in the world. The resort is centered around a beautiful historical centre that dates back to the 16th century, with winding cobbled streets and bars and restaurants set in former cellars with stone-vaulted ceilings, creating a picturesque backdrop to a dynamic holiday

WHAT OUR PARTNERS SAY:

Summit Travel has been working together with Discovery Italy for 12 years now. They take care of all our local contacts with the hotels, ski-shops, skipass-company, transfers, etc. as well as local suppliers for special activities. We are very happy with this cooperation: They are quick, accurate, nice, flexible and full of consideration.

Discovery Italy also takes care of our groups upon arrival in the resorts of Sauze d'Oulx and Sestriere. This warm welcome is surely one of the reasons many clients return with us to this ski-area.

If all agents in all ski-areas would work like them, our job would be much easier

Summit Travel

Discovery and Holiday Homes in Italy have been successfully collaborating for over 10 years, mainly providing skiing accommodation in the Via Lattea ski region. The excellent representatives of Discovery assist our clients in resort with any problems with the upmost urgency and efficiency, often going beyond what is expected, such as collecting ski passes for groups, meeting the clients at the accommodation, booking restaurants for large groups amongst many other things. This quality customer service ensures clients return year after year and for that reason we are looking to expand the collaboration into other regions

Holiday Homes in Italy

"Discovery Italy is more than an added value for us. We organise group holidays for huge groups, with demanding clients. Now and then we face serious logistic problems. Till now, they found a solution for every challenge. The devil is in the details, that's why Discovery Italy for us is an angel!"
